

HUMAN TRAFFICKING STATISTICS

The following is a list of available statistics estimating the scope of Human Trafficking around the world and within the United States. Actual statistics are often unavailable, and some may be contradictory due to the covert nature of the crime, the invisibility of victims and high levels of under-reporting. Further obstacles include inconsistent definitions, reluctance to share data, and a lack of funding for research and standardization of data collection. Estimates on the number of American citizens trafficked within the U.S. are particularly scarce.

Human Trafficking Worldwide

- 27 million - Number of people in modern-day slavery across the world.¹

 - \$9.7 billion, one third of the total, is made in Asia.
 - \$13,000 per year, on average, generated by each trafficked laborer. This comes to \$1,100 per month.
- \$21 billion - A preliminary estimate of the total financial cost of being in a forced labor situation, rather than a free employment situation, to all workers in forced labor across the globe in U.S. dollars.²¹
 - This includes costs such as loss of wages due to being paid below the market wage or not being paid for all hours worked, inflated costs for accommodations and food, and recruitment costs.
 - This does not include the commercial sex industry.

Foreign Nationals Trafficked into the U.S.

This publication was made possible in part through Grant Number 90ZV0087 from the Anti-Trafficking in Persons Division, Office of Refugee Resettlement, U.S. Department of Health and Human Services (HHS). Its contents are solely the responsibility of the authors and do not necessarily represent the official views of the Anti-Trafficking in Persons Division, Office of Refugee Resettlement, or HHS.

In FY 2010, 449 certifications were issued to adult victims of human trafficking and 92 eligibility letters were issued to child victims.²²

Since the Trafficking Victims Protection Act was enacted in 2000, the number of foreign national victims of trafficking in the U.S. who received Certification and Eligibility Letters has increased nearly every year, and especially after 2004.²³

 - DHS is authorized to issue up to 5,000 T-visas per year.

Human Trafficking of U.S. citizens within the U.S.

Statistics on human trafficking of U.S. citizens within the U.S. are scarce, as few studies have been conducted on the issue. Those that have been done tend to focus on sex trafficking, particularly of minors. Therefore, the focus of the statistics below on the domestic sex trafficking of minors is not meant to imply that sex trafficking of adults or the labor trafficking of adults and minors is not a significant issue in the U.S.

- 100,000 - 300,000 - Number of prostituted children in the U.S.²⁷
- 244,000 – Number of American children and youth estimated to be at risk of child sexual exploitation, including commercial sexual exploitation, in 2000.²⁸

Human Trafficking within the U.S. by State

U.S. Investigations, Prosecutions, and Convictions

It is likely that the numbers of traffickers convicted are higher than those reported below.
